LOVERS BEACH (NEVIS) NAMED 3RD MOST SECLUDED BEACH WORLDWIDE

OUALIE BAY, NEVIS (6th September, 2016) – Just a five minute walk from Oualie Beach Resort is Lovers Beach, which has been named 3rd most secluded beach worldwide by PureWow.com August 26th 2016 and MSN.

Lovers Beach got its name from all the couples who liked to spend their private time on this quiet beach.

Located down an unmarked dirt path, Lovers Beach will transport you to a mile-long empty

stretch of velvety sand on this Caribbean island's North coast. In addition to solitude, Lovers Beach also offers a fantastic view of sister Island St. Kitts and Booby Island.

Nevis is ideal for those seeking little-known destinations less frequented by tourists, as well as those interested in authentic experiences, learning about new cultures, broadening their horizons, doing new things, exploring new places and having adventures. Many who visit Nevis decide to stay at Oualie Beach Resort for its authentic Caribbean experience and the close proximity to Lovers Beach.

“The lands of Oualie Beach Resort and Lovers Beach are all one contiguous parcel of land owned by the local Yearwood family”, says Alastair Yearwood a Director of Oualie Beach Resort and (Council) Chairperson of the “St. Christopher and Nevis Conservation Foundation”. “Our guests take the short walk to the secluded Lovers Beach and often join the turtle watch night patrol to observe hawksbill, green and leather back turtles nesting on the beach. Lucky guests will even see the babies hatch out and race to the relative safety of the sea.”

Oualie Beach Resort rates for 2016 start at \$179 per room based on double occupancy and packages are available to suit a variety of special interests ranging from family to scuba as well as weddings and honeymoons.
